

Summary

AI Engineer specialising in agentic systems, multi-provider LLM orchestration, and real-time voice AI pipelines. Shipped 4 production AI products integrating OpenAI, Claude, Gemini, Mistral, and Groq — deployed on Railway, Vercel, and Supabase. Proficient in prompt engineering, MCP (Model Context Protocol) tool servers, async Python, RAG pipeline design, LLM eval loops, and AI-powered browser automation.

Technical Skills

Languages & Frameworks: Python, asyncio, TypeScript, Next.js, FastAPI, Flask, REST API design, SQL, C++
AI & Agentic Systems: Multi-agent orchestration, tool calling, MCP (Model Context Protocol), prompt engineering, structured JSON output enforcement, 2-pass LLM eval loops, context window management, hallucination control · **LLM APIs:** OpenAI, Claude API, Gemini 2.5 Flash, Mistral AI, Groq Whisper
RAG & Voice: LangChain, LangGraph, FAISS, ChromaDB, sentence-transformers, ElevenLabs TTS, WebSocket, openWakeWord · **Infra & Automation:** Playwright (async), Docker, SQLite WAL, Supabase, Stripe, Railway, Vercel, GitHub Actions, Git

Projects

- F.R.I.D.A.Y — Voice-First Agentic AI Assistant

Apr 2026

Python, Groq Whisper, ElevenLabs, FastMCP, Hermes LLM router, React/Vite, WebSocket, openWakeWord

GitHub

– Engineered a real-time voice pipeline (Groq Whisper STT → multi-provider LLM router → ElevenLabs TTS) exposing 77 skills and 26 tools via a FastMCP tool server, with hot-swappable providers (OpenAI, Anthropic, Gemini, Mistral, Ollama) configurable at runtime through a Hermes config-driven backend.

– Decoupled Python voice pipeline from React UI via an Express bridge with an allowlist-enforced config API (7 secret keys, 6 config keys), enabling live model hot-swaps and eliminating a class of misconfiguration errors in multi-provider setups.
- ResumeAI — ATS-Optimized Resume Builder

Mar 2026

Next.js 15, FastAPI, Claude API, Supabase, Stripe, Railway, Vercel, TypeScript

GitHub

– Shipped a full-stack AI resume platform to production (Railway + Vercel + Supabase) scoring resumes across 5 ATS dimensions against live JDs with Claude-powered rewrite suggestions and multi-format export (HTML, DOCX, plain-text).

– Eliminated silent UI crashes via a `normalizeAnalysis()` LLM output coercion layer; gated analysis behind Stripe-linked usage counters with BYOK credential support, storing zero API keys server-side.
- Apex Job Agent — Autonomous Multi-Platform Application Agent

Mar – Jun 2026

Python, Playwright, FastAPI, LangChain, SQLite, OpenAI / Anthropic / Gemini / Mistral, APScheduler

GitHub

– Automated end-to-end applications across 6 platforms (LinkedIn, Indeed, Greenhouse, Lever, Workday, iCIMS) via a Playwright applier with 17 priority-ordered selectors and LLM-powered form analysis, cutting manual apply time by ~85% per run.

– Built an LLM job scorer (0–100) with structured JSON enforcement processing 100+ listings/run; eliminated cross-run duplicates via SQLite status tracking and shipped a 5-provider AI ghostwriter via a unified `chat_json()` interface.
- CourseMateAI — RAG Study Platform with LLM Eval Pipeline

Jan – Apr 2026

FastAPI, LangChain, LangGraph, FAISS, Mistral AI, Next.js 16, TypeScript, SQLite (WAL), asyncio

GitHub

– Built a 5-mode RAG study platform (Chat, Notes, Flashcards, Quiz, Arena) with document-grounded FAISS retrieval and a 2-pass LLM eval loop auto-correcting all three JSON malformation patterns — enforcing structured output integrity across every response.

– Scaled quiz throughput 3× by parallelising LLM batch calls across 3 asyncio workers (`BATCH_SIZE=4`), cutting 20-question generation from ~18s to ~6s; multi-user JWT + bcrypt auth, thread-safe SQLite WAL, and persistent per-user FAISS indexing.

Certifications

- Claude with the Anthropic API —  Verified

2026

Anthropic Academy
- MCP: Advanced Topics —  Verified

2026

Anthropic Academy
- Introduction to Agent Skills —  Verified

2026

Anthropic Academy
- Build an AI Agent —  Credly Verified

2026

IBM SkillsBuild

Education

- Bachelor of Technology (Machine Learning and Artificial Intelligence)

2021 – 2025

Maharaja Surajmal Institute of Technology
- Secondary and Senior Secondary School

till 2021

Bharti Public School
